The Safer Affordable Fuel-Efficient (SAFE) Vehicles Rule for Model Years 2021-2026

Passenger Cars and Light Trucks

AGENCY: Environmental Protection Agency (EPA) and National Highway Traffic Safety Administration (NHTSA).

ACTION: Announcement of public hearings

SUMMARY: EPA and NHTSA are announcing public hearings to be held for the joint proposed “Safer Affordable Fuel-Efficient (SAFE) Vehicles Rule for Model Years 2021-2026 Passenger Cars and Light Trucks,” (SAFE Vehicles Rule) issued on August 2, 2018. NHTSA will also accept comment on NHTSA’s Draft Environmental Impact Statement (Draft EIS), available on NHTSA’s website at www.nhtsa.gov/corporate-average-fuel-economy/safe. Two hearings will be held, on September 21 and September 24, 2018. The agencies will assume that all oral

comments presented at the hearing are addressed to the joint proposed rules only, unless speakers specifically reference NHTSA's Draft EIS in oral or written testimony.

DATES: NHTSA and EPA will jointly hold two public hearings on the following dates:

September 21, 2018 in Pittsburgh, Pennsylvania; and September 24, 2018 in Fresno, California.

The hearings will start at 10 a.m. local time and continue until 5:00 p.m. or until everyone has had a chance to speak. If you would like to present oral testimony at one of these public hearings, please contact the person identified under FOR FURTHER INFORMATION CONTACT, at least ten days before the hearing.

ADDRESSES: The September 21, 2018 hearing will be held at the Wyndham Grand Pittsburgh Downtown, 600 Commonwealth Place, Pittsburgh, Pennsylvania 15222. The September 24, 2018 hearing will be held at the The Grand 1401, 1401 Fulton Street, Fresno, California 93721.

The hearings will be held at sites accessible to individuals with disabilities.

FOR FURTHER INFORMATION CONTACT: If you would like to present oral testimony at a public hearing, please contact Kil-Jae Hong at NHTSA by the date specified under DATES, at kil-jae.hong@dot.gov. Please provide the following information: Name, affiliation, address, e-mail address, telephone and fax numbers (if applicable), time you wish to speak (morning, afternoon) if there is a preference, and whether you require accommodations such as a sign language interpreter or translator.

Questions concerning the proposed rules should be addressed to NHTSA: James Tamm, Office of Rulemaking, National Highway Traffic Safety Administration, 1200 New Jersey Avenue, SE, Washington, DC 20590. Telephone: (202) 493-0515. EPA: Chris Lieske, Office of Transportation and Air Quality, Assessment and Standards Division (ASD), Environmental Protection Agency, 2000 Traverwood Drive, Ann Arbor, MI 48105; telephone number: (734)

214-4584; fax number: (734) 214-4816; email address: lieske.christopher@epa.gov. You may learn more about the proposal by visiting NHTSA's or EPA's web pages at <http://www.nhtsa.gov/corporate-average-fuel-economy/safe> or <https://www.epa.gov/regulations-emissions-vehicles-and-engines/safer-and-affordable-fuel-efficient-vehicles-proposed>, or by searching the public docket (NHTSA-2018-0067 (for the proposed rule) or NHTSA-2017-0069 (for the Draft EIS); EPA-HQ-OAR-2018-0283) at www.regulations.gov.

SUPPLEMENTARY INFORMATION: The purpose of the public hearings is to provide the public an opportunity to present oral comments regarding NHTSA and EPA's proposals for the SAFE Vehicles Rule. These hearings also offer an opportunity for the public to provide oral comments regarding NHTSA's Draft EIS, accompanying the proposed NHTSA fuel economy standards. The agencies will assume that all oral comments presented at the hearing are addressed to the joint proposed rules only, unless speakers specifically reference NHTSA's Draft EIS in oral or written testimony.

The SAFE Vehicles Rule, if finalized, would amend certain existing Corporate Average Fuel Economy (CAFE) and tailpipe carbon dioxide emissions standards for passenger cars and light trucks and establish new standards, all covering model years 2021 through 2026. More specifically, NHTSA is proposing new CAFE standards for model years 2022 through 2026 and amending its 2021 model year CAFE standards because they are no longer maximum feasible standards, and EPA is proposing to amend its carbon dioxide emissions standards for model years 2021 through 2025 because they are no longer appropriate and reasonable in addition to establishing new standards for model year 2026. The preferred alternative is to retain the model year 2020 standards (specifically, the footprint target curves for passenger cars and light trucks) for both programs through model year 2026, but comment is sought on a range of alternatives

discussed throughout this document. Compared to maintaining the post-2020 standards set forth in 2012, current estimates indicate that the proposed SAFE Vehicles Rule would save over 500 billion dollars in societal costs and reduce highway fatalities by 12,700 lives (over the lifetimes of vehicles through MY 2029). U.S. fuel consumption would increase by about half a million barrels per day (2-3 percent of total daily consumption, according to the Energy Information Administration) and would impact the global climate by 3/1000th of one degree Celsius by 2100, also when compared to the standards set forth in 2012.

The proposal for which EPA and NHTSA are holding the public hearings was issued on August 2, 2018 and is available at the web pages listed above under FOR FURTHER INFORMATION CONTACT and also in the rulemaking dockets. NHTSA's Draft Environmental Impact Statement is available on NHTSA's web page and in NHTSA's docket for the EIS, both referenced above. Once NHTSA and EPA learn how many people have registered to speak at each public hearing, we will allocate an appropriate amount of time to each participant, allowing time for necessary breaks. In addition, we will reserve a block of time for anyone else in the audience who wishes to give an oral presentation. For planning purposes, each speaker should anticipate speaking for approximately ten minutes, although we may need to shorten that time if there is a large turnout. We request that you bring three copies of your statement or other material for the EPA and NHTSA panels. To accommodate as many speakers as possible, we prefer that speakers not use technological aids (e.g., audio-visuals, computer slideshows). However, if you wish to do so, you must notify the contact persons in the FOR FURTHER INFORMATION CONTACT section above. You also must make arrangements to provide your presentation or any other aids to NHTSA and EPA in advance of the hearing in order to facilitate set-up.

NHTSA and EPA will conduct the hearings informally, and technical rules of evidence will not apply. We will arrange for a written transcript of each hearing and keep the official record of each hearing open for 30 days to allow speakers to submit supplementary information to the dockets listed above. Panel members may ask clarifying questions during the oral presentations, but will not respond to the presentations at that time. You may make arrangements for copies of the transcripts directly with the court reporter.

Written statements and supporting information submitted during the comment period will be considered with the same weight as oral comments and supporting information presented at the public hearings. To be assured of consideration, written comments on the proposal must be received by the date indicated in the *Federal Register* once the document publishes. Written comments on NHTSA's Draft EIS must be received or uploaded to NHTSA's docket for the EIS by September 24, 2018.
