Ryan,

Coming to you first, and wanted to see if you have time to meet in the next week or so or if you could point us in the right direction for a meeting at EPA, especially on RCRA.

Our client Bloom Energy, a fuel cell manufacturer that runs its fuel cells on natural gas, has tried to work through EPA regulations and we would like to come in and discuss. Here is the short version: Bloom uses a de-sulfurization unit to extract sulfur from natural gas as it enters the fuel cell stacks. In doing so, the units capture a trace amount of benzene, a regulated chemical.

We'd love to talk to you or someone on your staff about this and can bring their General Counsel either next week (the 20-24) 27th or after April 4th. Let me know what works on your end.

Thanks,
T.A.
